

June and The Rhythms

The lounge seating area 2

The Lounge

IT WAS A DELIGHTFUL surprise to discover and listen the sounds of June and The Rhythms. As you wandered into the newly renovated lounge of the Hyatt Regency Kinabalu, the sound of classy jazz music filled the lobby of the hotel and created a stylish jazz environment. The newly renovated lounge has been acoustically designed to enable the music to encompass the lounge yet not drown out our conversations.

More excitingly, it was the sound of local jazz talent in Sabah. With June on the piano, Khai on the saxophone, Hezron on the drums and Onell on the bass, it was a delight to see all of them enjoying themselves, and they truly love what they do. This love magnitudes itself into the sweet sounds of contemporary jazz that blends together to create easy listening. June and

the Rhythms repertoire include evergreen hits from the 80's and 90's presented through a jazz blend that is both mesmerizing and stylish.

The newly renovated lounge at Hyatt Regency Kinabalu has truly set the standard as the place to meet, the place to listen to smooth jazz, combined with also the place to people watch. Being part of the newly renovated Tanjung Ria Kitchen, an ideal evening begins with an exciting buffet dinner at the show kitchen and end the evening with a nightcap at the Lounge with the cool sounds of June and the rhythms in the background to help round up a great evening with friends and families.

With the sounds of classy music over the weekends, The Lounge at Hyatt Regency Kinabalu is truly now the place to meet in Kota Kinabalu.
